National Microchip (National) is an independent stocking distributor and global leader in the delivery of innovative Electronics Component and Logistic Solutions for the Defense and Aerospace industries. National provides turnkey services from engineering, Die Bank and Warehousing, Wafer Fab and Wire Bonding, Testing, SMT assembly, Packaging and Component Sourcing to custom proprietary product solutions. National’s expertise in quality assurance, technology and supply chain management, together with our leadership in the global deployment of Lean and Six Sigma, enables us to provide our customer with a competitive advantage to our customers by improving time-to-market, scalability and efficiency.

COMPETITIVE ADVANTAGES

Customer Driven
National builds and sustains strong partnerships with our customers by being accountable, cost-effective, responsive, and trustworthy. Customer satisfaction is our ultimate goal and we strive through our services to always put our customer first.

Values Driven
National believes that our best product is our people. Our creativity, commitment, and passion for responsiveness allow us to thrive in a changing business environment.

Six Sigma Culture
National has dedicated itself to exceeding customer expectations and does so by providing industry-leading, quality products and services on time, at competitive costs.

Supply Chain Management
National creates an integrated supply chain with our customers and suppliers by becoming a seamless extension of their operations. We deliver “Best in Class” processes, information technology tools and people.

Seamless Global Network
National operates a global Procurement Network that enables us to provide our services and products seamlessly worldwide. This network consists of a robust set of systems, skills, and tools that we use to efficiently manage production and services, regardless of geography, costpoint, technology or end-market demand.

Low-Cost Source
National is recognized as a low-cost source of electronics procurement services (EPS) and products, without sacrificing quality, technology or on-time delivery.

Strong Financial Performance
National delivers strong financial performance by wisely managing our investments and working capital, aggressively controlling costs, and ensuring that our revenue growth meets our financial return expectations. Applying prudent risk management and corporate governance, National is a company driven by strong corporate values, based on the highest degree of integrity.
